Division of Fish and Wildlife

PUBLIC NOTICE

3502 Striped Bass Spawning Season and Area Restrictions.

Several commercial striped bass gill net fishermen proposed adjustments to the seasonal fixed gill net exclusion area in the Delaware River to facilitate striped bass capture efficiency and to reduce drift gill net conflicts with recreational boaters and anglers. This action proposes to expand the current allowable area where fixed gill nets can be used by opening approximately 1.75 nautical miles (linear) of the Delaware River to fixed gill net fishing during the months of January through May. The current seasonal fixed gill net exclusion area extends from Liston Point (Delaware River) northward. This action would adjust the lower boundary of the exclusion area northward (upstream) to the southern shore of Appoquinimink River mouth at latitude 39°26'51.00"N and longitude 75°34'46.00"W.

The proposed action is consistent with the Atlantic States Marine Fisheries Commission's Interstate Fishery Management Plan for the Striped Bass, its amendments and addenda. The Advisory Council on Tidal Fisheries endorsed development of this action at their September 25, 2019 meeting. Striped bass landings will be unaffected by this amendment, as the commercial striped bass fishery is managed through and limited by an annual commercial quota with mandatory harvester and weigh station tagging and reporting.

The hearing record on the proposed changes to 7 **DE Admin. Code** 3502 Striped Bass Spawning Season and Area Restrictions opens February 1, 2020 (Hearing Docket No. 2019-R-F-0026). A public hearing on the proposed amendment will be held on Wednesday, February 26, 2020 beginning at 6:00 PM in the DNREC Auditorium, located at the Richardson & Robbins Building, 89 Kings Highway, Dover, DE 19901. Individuals may submit written comments regarding the proposed changes via e-mail to DNRECHearingComments@delaware.gov, or via USPS to the DNREC Hearing Officer, 89 Kings Highway, Dover, DE 19901. Public comments will be received until close of business Thursday, March 12, 2020.

Division of Fish and Wildlife
PUBLIC NOTICE
3550 Cobia (*Rachycentron canadum*)

The Atlantic States Marine Fisheries Commission adopted the Interstate Fishery Management Plan for Atlantic Migratory Group Cobia (FMP) in November 2017. The most recent stock assessment indicated that Cobia biomass has declined over the past two decades, but the stock is not overfished and overfishing is not occurring. The FMP requires that states adopt the precautionary management measures contained in the FMP to prevent overfishing.

Cobia presence in Delaware waters is sporadic, but they are targeted by anglers when known to be present. Delaware had no reported commercial or recreational Cobia landings in the three years preceding adoption of the FMP. Therefore, Delaware qualifies for *de minimis* status under the FMP criteria and may adopt either of the following two management options:

Delaware's proposed Cobia management options.

	Option 1 <i>De Minimis</i>		Option 2 Nearest Non- <i>De Minimis</i>	
	Recreational	Commercial	Recreational	Commercial
Min. Length	32	37	40	37
Possession Limit	1	2	1	2
Vessel Limit	1	6	3	6
Open Season	All Year	All Year	June 1 - Sept. 15	All Year

Option 1 reflects the *de minimis* management measures outlined in the FMP and Option 2 reflects the management measures in place for the nearest non-*de minimis* jurisdiction (VA). The commercial fishing management measures are identical in both options; however, the recreational management measures differ by the minimum length, maximum vessel limit and season.

Adoption of either option will ensure compliance with the FMP, as required by the Atlantic Coastal Fisheries Cooperative Management Act (16 USC §§5101, *et seq.*). The proposed action is expected to complement federal management in a consistent manner throughout the management unit and provide for the long-term stability of the stock. Given the sporadic occurrence of Cobia in Delaware waters, it is unlikely that the proposed action will have significant, measurable or predicable costs to the affected Delaware fisheries or their dependent businesses.

The hearing record on the proposed changes to 7 **DE Admin. Code** 3500 Tidal Finfish to include a new 3550 Cobia opens February 1, 2020 (Hearing Docket No. 2019-R-F-0002). A public hearing on the proposed amendment will be held proceeding the adjournment of the public hearing on proposed amendments to 7 **DE Admin. Code** 3502 Striped Bass Spawning Season and Area Restrictions (SAN # 2019-10; Hearing Docket No. 2019-R-F-0026) on Wednesday, February 26, 2020 at 6:00 PM in the DNREC Auditorium, located at the Richardson & Robbins Building, 89 Kings Highway, Dover, DE 19901. Individuals may submit written comments regarding the proposed changes via e-mail to DNRECHearingComments@delaware.gov, or via USPS to the DNREC Hearing Officer, 89 Kings Highway, Dover, DE 19901. Public comments will be received until close of business Thursday, March 12, 2020.
