In compliance with the State's Administrative Procedures Act (APA - Title 29, Chapter 101 of the **Delaware Code**), 42 CFR §447.205, and under the authority of Title 31 of the **Delaware Code**, Chapter 5, Section 512, Delaware Health and Social Services (DHSS) / Division of Medicaid and Medical Assistance (DMMA) is proposing to amend the Delaware Title XIX Medicaid State Plan regarding *increased Medicaid payments for designated primary care services*.

Any person who wishes to make written suggestions, compilations of data, testimony, briefs or other written materials concerning the proposed new regulations must submit same to Sharon L. SUMMARY OF PROPOSAL

The purpose of this notice is to advise the public that the Division of Medicaid and Medical Assistance is proposing to amend the Title XIX Medicaid State Plan, pursuant to section 1202 of the Affordable Care Act, to modify *reimbursement for primary care services*.

Statutory Authority

Patient Protection and Affordable Care Act (Pub. L. No. 111-148 as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152)), together known as the *Affordable Care Act*

Background

Section 1202 adds new requirements in sections 1902(a)(13), 1902(jj), 1932(f), and 1905(dd) of the Social Security Act, as amended by the *Affordable Care Act*.

Specifically, Section 1202 requires state Medicaid agencies to increase payments to certain specialties for certain primary care services provided to Medicaid recipients during calendar years 2013 and 2014. Under this provision, certain physicians that provide eligible primary care services would be paid the Medicare rates in effect in calendar years (CYs) 2013 and 2014 (or if greater, the Medicare rate in effect in 2009) instead of their usual state-established Medicaid rates, which may be lower than federally established Medicare rates. Increased payment applies to primary care services delivered by a physician with a specialty designation of family medicine, general internal medicine, or pediatric medicine or related subspecialists. States will receive 100 percent Federal financial participation (FFP) for the difference between the Medicaid State plan payment amount as of July 1, 2009 and the applicable Medicare rate. The increase applies to a specific set of services and procedures that Centers for Medicare and Medicaid Services (CMS) designates as "primary care services".

In 42 CFR §447.410, States are required to *submit a State Plan Amendment (SPA)* to reflect the fee schedule rate increases for eligible primary care physicians under section 1902(a)(13)(A) of the Social Security Act. The purpose of this requirement is to assure that when States make the increased reimbursement to providers, they have State Plan authority to do so and they have notified providers of the change in reimbursement as required by Federal regulations.

Summary of Proposal

Pursuant to 42 CFR §447.205, the Division of Medicaid and Medical Assistance (DMMA) is required to give public notice of any significant proposed change in its method and standards for setting payment rate for services. On December 22, 2012 in the News Journal and on December 19, 2012 in the Delaware State News, DMMA issued public notice of its intent to submit a Medicaid State Plan amendment to implement the provisions of Section 1202 of the Affordable Care Act.

Effective January 1, 2013, this State Plan Amendment (SPA) will (1) amend the fees for selected services provided by certain primary care physicians to match 100% of Medicare rates for calendar years 2013 and 2014 and (2) amend the fees for vaccine administration under the Vaccines for Children (VFC) Program to match 100% of Medicare rates for calendar years 2013 and 2014, or the VFC Regional Maximum Amount, whichever is less.

Changes to the Medicaid State Plan

Effective January 1, 2013, this State Plan Amendment, Transmittal Number 13-001, will amend the fees for services provided by certain primary care physicians to match 100% of Medicare rates for calendar years 2013 and 2014, calculated pursuant to 42 USC §1396a(a)(13)(C) and 42 CFR §447.405(a). These increased rates will apply to the primary care procedure codes identified pursuant to 42 USC §1396a(jj) and 42 CFR §447.400(c). Primary care physicians identified pursuant to 42 USC §1396a(13)(C) and 42 CFR §447.400(a) will be eligible to receive 100% of the Medicare rates for those primary care services.

Effective January 1, 2013, this State Plan Amendment will also amend the fees for vaccine administration provided under the Vaccines for Children (VFC) program to match 100% of Medicare rates for calendar years 2013 and 2014, or the VFC Regional Maximum Amount, whichever is less; calculated pursuant to 42 CFR §447.405(b).

Due to the extensive delay in finalizing the federal rule and the requirement that CMS approve the State methodology for increased payments, DMMA and its contractors will initially reimburse qualifying providers according to the current rates beginning January 1, 2013. DMMA and its contractors will then reimburse qualifying providers the amount above the current rate attributable to the increase required by the federal rule, retroactive to January 1, 2013.

The provisions of this state plan amendment relating to methodology and payment of the enhanced rate are subject to approval by the Centers for Medicare and Medicaid Services (CMS).

Fiscal Impact Statement

Due to the availability of 100% FMAP for these primary care services, the DMMA projects no fiscal impact on the General Fund in Calendar Years 2013 and 2014.

DMMA PROPOSED REGULATION #13-10

Documentation of Vaccine Administration Rates in Effect 7/1/09**

The state uses one of the following methodologies to impute the payment rate in effect at 7/1/09 for code 90460, which was introduced in 2011 as a successor billing code for billing codes 90465 and 90471.

☐ The imputed rate in effect at 7/1/09 for code 90460 equals the rate in effect at 7/1/09 for billing codes 90465 and 90471 times their respective claims volume for a 12 month period which encompasses July 1, 2009. Using this methodology, the imputed rate in effect for code 90460 at 7/1/09 is: _____.

☒ A single rate was in effect on 7/1/09 for all vaccine administration services, regardless of billing code. This 2009 rate is: \$8.00 (eight dollars).

☐ Alternative methodology to calculate the vaccine administration rate in effect 7/1/09:

Note: This section contains a description of the state's methodology and specifies the affected billing codes.
